THE FIRST DAYS OF TURNAROUND

Changing Conditions — a Message from HSSE

In regards to Process Safety Fundamentals, whether you are a passive or active user, there are a few things to consider:

- Know and understand the basic fundamental requirements
- Be learners and seek to understand
- Mentor your team
- Participate
- Communicate
- Be aware of your surroundings
- Be curious
- Be prepared

TURNAROUND STATS	LAST 24 HRS	OVER-ALL
First Aids	0	0
Near Miss	0	0
Dropped Objects	0	0
Medical Aids	0	0

Domestic	Green 6 yard bins - located near housing trailers & BRMs.
Cardboard	Brown 6 yard bins - located next to domestic bins.
Liquids	Bung type drum or tote - must be labelled by who fills them.

STEP

Situational Awareness

As more and more crews are working on site, it's going to become congested. Make sure your work, tools, & equipment are not causing a hazard for crews in your vicinity.

Use the 20/20/20 rule - Every 20 minutes, take 20 seconds, and look 20 feet around you. Don't forget above and below!

Also, when units are coming down, before you enter the unit ask yourself: "Is it important, crucial, or vital that I be in the unit during takedown?"

If the answer is no, wait.

A GOOD DAY

After a good supper with friends the night before, Jesus could not sleep. Instead he visited the Garden of Gethsemane and took three of his closest friends.

There, in the quiet of the place, he confessed, " My anguish is so great I feel like I'm dying. Wait here, and stay awake with me."

Jesus walked off a bit and bowed with his face to the ground and prayed, "Father, if it's possible, let this cup of suffering be taken away from me. But let your will be done rather than mine."

Whether your celebration is focused on the Cross and the Resurrection, or Easter Sunday, we want to wish you the BEST!

GOAL ZERO CUP

Our 2nd Goal Zero Heroes of the TA are...

The TEAM Industrial Heat Treaters (on Nights) just finished up their work on the E10 exchangers in RHC in order to get Train 1 going. The work was completed incident free and with a sustained positive safety culture attitude.

This crew has the kind of Energy and Commitment to Safety that's Infectious!

Lessons Learned
