

**OVERALL EVENT PROGRESS** **93 %**

## CLOSING MESSAGE

*Team, this is the last issue of the Turnaround Times for the 2023 UPGS Event. We want to take this moment to leave you with a heartfelt message.*

First of all, thank you. Thank you to everyone who has contributed to this Turnaround so far. There are so many names deserving a mention, but far too many to list here.

We still have a bit to go to call this event complete. To us, 100 % Success means a Flawless Start-up with Zero Process Safety Incidents. Please, continue looking out for your team members. Doing this will help us to maintain the high standard of safety we have had in this event.

Our goal for this event was to achieve the Scotford Hat Trick.

1. Safety: Goal Zero
2. Schedule: On Schedule
3. Teamwork: Definitely hit this one out of the park!

Again, thanks for all the great work and the friendships we all made within this event.

**Devin Weyland , Graham Polischuk, Jeff Davies, Travis Rask, Scott Lange & Dean Rodgers**

Environmental Non-Comp.	0	0

### Lessons Learned

Submissions for continual improvement.

# GOAL ZERO CUP

"I would like to nominate Brand worker Gord Sparks for making a difference by his commitment to perform safe actions and leading by example. While loading the crane baskets in west horseshoe in the west side of RHC-Base with the area being congested, Gord jumped in to spot other company zoom booms to ensure safe transitions. Gord's job tasks include taking insulation materials orders from the FM, giving the information to the Insulator shop, and then delivering it to the crew in the unit safely." Thank you for your Safety and Great Work Gord!

"Special thanks to the RAB shop folks for all the support given during the event.

Always there for us with short notice, good quality and quick turnover, with the ability to provide services and support to the turnaround we simply didn't have just a few short years ago. The cup deserves to visit it's birthplace! Thank you guys!!

"I would like to nominate the Security Team for the Goal Zero Cup.

I believe they have contributed greatly to goal zero and it shows just from the recognition received during the Turnaround Safety Leads Meetings. No matter the challenges this TA brought forth, Security has prevailed. Whether it be the influx of onboarding and card processing, dealing with the North Hub power outage, providing increased presence in multiple areas, conducting random searches, multiple investigations due to theft or contractor vehicle damage, or taking the time to aid a lost contractor – Security has been

recognized by the Safety Leads as supportive, professional, having a hearts and minds approach, polite, helpful, resilient, friendly, and providing a presence on site that sets expectations. These are the reasons I believe Security deserves the goal zero cup, this could have been a very different TA without their diligence and positive attitudes."
