LOPC (>100kg)	0	0
Environmental Non-Comp.	0	0

“Don't forget how important the "little things" are on our journey to Goal Zero. Things like correct PPE for the task, maintaining housekeeping, proper storage/retention of tools, and strong communication are all important pieces we need to maintain focus on.

**And don't forget the great work you've been doing shift after shift! Thank You!!”**

*- Mel Fedorovich, TA Safety Specialist*

**TEAM – More than a Name, A Way of Working!**

“Both night and day shifts are always performing at a high level with their jobs at hand from PPE, line of fire, mechanics and even while swinging blinds on the reactors. TEAM always maintain a great team environment and communicate very well even in SCBA.”

**#BeOneGreatTeamLikeTEAM**

**The Fun and Hardworking Cat Changer Crews know that Attitude is the difference between an Adventure and an Ordeal!**

*“I would like nominate cat changers. They are a specialty contractor and work in very challenging conditions like inert entries, warm and dirty conditions which requires special training, and they perform their work flawlessly.*

*Their leadership team as well as their field workers are a pleasure to work with, and I think they definitely deserve to hold the goal zero cup high!”*

# SCOTFORD GOAL ZERO WEEKLY AND TURNAROUND TIMES MONDAY, OCTOBER 16, 2023

## NO HARM (Site)

FAC	11-Oct-23	Foreign body in worker's eye while emptying bag of material.
FAC	11-Oct-23	Worker received foreign body in eye.

## WEEKLY SAFETY TOPIC - LINE OF FIRE

Line of Fire risks come in many forms, and all can have serious, negative consequences. Whatever the task, here are some questions to ask to mitigate LOF risks. (please use these questions and the commitment to open your discussion)

### For the Team:

- How can you and your team stay safe?
- Are there hardware/process/human barriers in place?
- Have the LOF hazards been discussed during safety or toolbox meetings?

### For Yourself:

- How do I stay out of the LOF?
- What can go wrong?
- Where is the energy?

### Don't be Blind to the Hazards of Deblinding.

Slogan Submitted by :  
Tim Wegner

### LINE OF FIRE: The Zone within a Work Area where there is Risk of Serious Injury from Moving Objects, Vehicles, Pressure Releases and Dropped Objects

Moving Vehicles/Heavy Equipment	Pressurized Equipment
Lifting/Hoisting	Machinery & Tools
Working at Height/Dropped Objects	Electrical Equipment
Tensioned Lines/Spring Loaded Devices	Projectiles
Objects with Roll or Fall Potential	Pushing Pulling

### Commitment:

- I position myself to avoid:
  - moving objects
  - vehicles
  - pressure releases
  - dropped objects
- I establish and obey barriers and exclusion zones
- I take action to secure loose objects and report potential dropped objects
