SAFETY TOGETHER *The Significance of Designated Walkways & Clear Paths*

In the daily bustle of our lives, it's easy to underestimate the importance of established paths and clear walkways. Ensuring safety and promoting a cohesive environment hinges upon using designated walkways and keeping pathways free from obstructions. Let's delve together into the rationale behind these practices and emphasize

the importance of being mindful of fellow workers because, in the end, we're all in this Turnaround together.

Designated Walkways – are more than mere lines on the ground; they are thoughtfully planned routes that are intended to keep us secure and organized. Around site, designated walkways are pivotal to employee safety. These paths are designed to keep workers away from potentially hazardous areas, like heavy machinery, uneven surfaces, or vehicle routes. By using these pathways, we significantly reduce the likelihood of accidents, thus ensuring a safe and efficient work environment.

Communal Areas like our admin buildings, security complex and cafeteria rely on clear paths of travel to facilitate the orderly movement of people. Sometimes they are not heavily marked but still denote a direction of movement. When everyone adheres to a common flow, it reduces congestion and minimizes the risk of accidents, ultimately bene-

fitting personal safety and the overall experience of all individuals.

Goat Trails Present a Risk of Injury – The term "goat trails" playfully suggests the notion of forging impromptu paths, often as shortcuts, where none were initially intended. While this may seem harmless or convenient, these trails can indeed pose risks to our safety. Goat trails often lead pedestrians into unsafe or unsuitable areas, such as construction zones, vehicle paths, or uneven terrain. These areas may harbor hidden dangers that can result in accidents or injuries.

Keep Pathways, Accesses, and Egresses Clear from Obstructions – In addition to using designated walkways, it's equally important to ensure that pathways, accesses, and egresses remain free from obstructions. By keeping these routes clear of obstacles, we reduce the risk of tripping or falling. Clear pathways, accesses, and egresses foster smooth movement, making it easier for individuals to reach their destinations efficiently. This not only minimizes frustration but also enhances productivity and the overall experience for all.

Be Mindful of Fellow Workers: We Are In This Together – The ultimate aspect of this safety equation is to consider our fellow workers in our Scotford community. We genuinely are in this together, and our actions have a significant impact on the safety and wellbeing of those around us. Safety is a shared responsibility. When we adhere to designated walkways, keep pathways, accesses, and egresses clear, and think about our fellow workers, we contribute to creating an environment where safety is the norm. Let's prioritize safety, respect and the welfare of others together. Undoubtedly, this will strengthen the bonds within our workplace community.

The next time we're tempted to take a shortcut or leave an obstruction in a pathway, let's remember that our actions matter, and we truly are in this together. Let's work as a team to ensure a safer, more efficient, and more harmonious environment for every person.

SCOTFORD WEATHER

<p>Fri 13 Day</p> <p>15° ☀️</p> <p>A mainly sunny sky. High near 15C. Winds SE at 15 to 30 km/h.</p> <p>Humidity 65% UV Index 2 of 11</p> <p>☀️ Sunrise 07:56 🌇 Sunset 18:40</p>	<p>Fri 13 Night</p> <p>4° 🌙</p> <p>Clear skies. Low 4C. Winds SE at 15 to 30 km/h.</p> <p>Humidity 61% UV Index 0 of 11</p> <p>🌅 Moonrise 06:36 🌑 Moonset 18:28</p> <p>● Waning Crescent</p>

STEP Weekly Prize Winners so Far...

Date	Observer's Name	Company	Shift
20-Sep	Cheryl	Mammoet	Days
20-Sep	Cody	Ed Ex	Nights
27-Sep	Jonathan	Brand	Days
27-Sep	Elaine	Ed Ex	Days
4-Oct	Xiomara	Compass	Days
4-Oct	Rob	Brand	Days
11-Oct	Christine	Ed Ex	Days
11-Oct	Tomasz	Chemco	Nights

Don't stop believing...you could be the one who wins the next FR Hoodie and Parking Spot for being safe!

The Weekly Safety Prize draws will continue until the Wednesday after the last day of the Mechanical Window.

GOAL ZERO CUP

"We would like to put forward the Day and Night Shift Yellow Block MVC Teams

Consisting of members from Sulzer, Ed EX Riggers, Mammoet, and Shell, these folks are deserving candidates for the Goal Zero Cup. This team has consistently demonstrated exceptional performance throughout the Turnaround, with an unwavering commitment to safety at every stage of the plan.

Their dedication shone particularly bright given the numerous uncertainties surrounding the project, such as found damaged and piled-up trays, confirmed asbestos gasketing, and the management of multiple work fronts. Despite these challenges, the Yellow Block MVC Team's communication and collaboration amongst its members were truly remarkable, making it a privilege to be a part of this outstanding team."

Thank you to Emergency Services for Bringing one of their Rescue Vehicles to make this recognition even more special for a member of dayshift who Loves Firetrucks!
